

## Stranded porpoises in Little Belt

If you find a stranded porpoise, you have found valuable information that the project “Belt in Balance” managed by Nature Park Little Belt will appreciate!

In case of a stranded porpoise, here's what to do:

- 1) Take a few pictures of the animal
- 2) Note down the exact position/address
- 3) Send a text message with picture and address to Line A. Kyhn, Aarhus University, +45 30183148.

If the animal is fresh enough for a necropsy, we will pick it up as soon as possible,.
